## PRODUCT DATA

### **Bee Pollen Granules**

**Item #: BP110**

#### **Description:**

Bee Pollen refers to pollen which is collected and stored by honeybees in their hives and mixed into secretion and nectar. It is nacarat granular. Pollen is the male seed of flowers.

#### **Applications:**

Bee products such as royal jelly, honey, beeswax and bee pollen are natural and nutritional health products used mainly as food/dietary supplements and other personal care products. Many of the nutritional components contained in these products cannot be found in other natural health products.
