

Pine Bark Extract

Negative impacts of environmental pollutants, stress from lifestyle, and poor diet lacking in essential nutrients contribute to the oxidation in the body and the release of free radical damage. This process is responsible for the breakdown of healthy cells and aging. Oxidative damage leads to cancer, cardiovascular disease and other chronic ailment

Applications:

Skin creams, topical products, functional food and drinks, nutritional supplements.

Why H&A's Pine Bark Extract?

H & A's Pine Bark Extract contains a unique water-extract rich in oligomeric proanthocyanidin (OPC) a powerful antioxidant, that work to counteract the effects of free radical damage. Our product contains more than twice the amount of OPC than most of the other

pine bark extracts and 80% more polyphenol. It has superior efficacy, is more bioavailable and its recommended dosage is 30% less than the leading pine bark extracts. It can also amplify the effects of vitamins and antioxidants when use in combination with them. It is tested safe and effective without side effects. Contains 40% OPC and 80% polyphenols.

Primary Benefits

Functional foods and beverages:

Pine Bark Extract has complete solubility and clarity in solutions and makes it undetectable due to the small amount needed and pleasant taste. Pine bark extract can be used in energy bars and sports drinks.

Cardiovascular Health:

Pine Bark Extract has been researched and proven to modulate high blood pressure and to improve overall cardiovascular function. Pine Bark Extract has been shown to lower serum lipid levels, decrease negative LDL cholesterol and triglycerides while increasing good HDL cholesterol levels.

Dermal Health:

Pine Bark extract promotes collagen production and a fights free radicals that that destroy collagen. This leaves the skin with superior tone and elasticity. Pine Bark Extract also counteracts the free radicals that contribute to age spots, dark circles and discoloration of the skin.

Manufactured in an ISO 9001:2000 and GMP facility.
